LIBRARY LEVY: A REPORT TO THE PUBLIC

In 2012, Seattle voters improved access to critical educational and literacy resources for every resident by passing a seven-year, $123 million Library levy.

The levy is helping restore core services drastically cut during the prolonged recession. The levy supports better Library hours, books, technology and building maintenance, and allows us to access and leverage investments from other sources to respond to the evolving needs of patrons.

It also protects a bold vision approved by Seattle voters in 1998 called “Libraries for All,” which resulted in new and remodeled branch libraries across the city.

We are proud to report our progress after four years of levy funding.
